SUMMARY

Energetic full stack web developer with skills in HTML, CSS, JavaScript and SQL databases. Passion for crafting intuitive user interfaces. Strong aptitude for data analysis and developing user-friendly websites. Customer-focused approach stemming from background in service industry roles. Seeking opportunity to join an organization where I can build innovative solutions as part of an empathetic, engaged software team invested in supporting professional growth.

PROJECTS

SkillVille

March - April 2024

skillville.me/

Solo Full-Stack developer on a passion project that marked the end of my Atlas career. In just under three weeks, I designed and built a fully responsive and visually appealing website from scratch to host our educational children's game and team information.

- Figma
- JavaScript
- React.js
- HTML/CSS

The Joy of Coding

December 2023

github.com/timidgeek/holbertonschool-the-joy-of-painting-api

ETL project cleaning 3 sets of Bob Ross data, loading into a relational database, creating API to allow for users to access organized and sorted episodes of The Joy of Painting. Tools used:

- Python
- MySQL & MySQL Workbench
- Pandas
- Express
- Jupyter Notebook
- NodeJS
