SUMMARY

Energetic full stack web developer skilled in HTML, CSS, JavaScript and SQL databases. Passion for crafting intuitive user interfaces. Strong aptitude for design and writing clean, functional code. Empathetic customer-focused approach. Seeking opportunities to join an organization in which to build innovative and creative solutions, as part of a software team invested in supporting professional growth.

WORK EXPERIENCE

Front End Web Developer
Spherexx.com | Tulsa, OK
June 2024 - Present

- Built ~10 custom responsive websites tailored to client needs, bringing their visions to life
- Implemented dozens of fixes and maintained legacy ASP code
- Created interactive apartment site plans using Adobe Illustrator and integrated them with software
- Developed a module library showcasing the functionality and design of 100+ custom-built modules for an inline editor
- Designed and built new custom website templates from scratch for use in our company's growth
- Migrated 2 old ASP templates to a new software platform to modernize client websites
- Performed brand updates to enhance website aesthetics, messaging, and impact
- Updated 10 deluxe website templates for improved ADA compliance and accessibility
- Spent hundreds of hours enhancing ADA compliance and developing innovative accessibility solutions

PROJECTS

SkillVille skillville.me/
March - April 2024

Solo Full-Stack developer on a passion project that marked the end of my Atlas career. In just under 3 weeks, I designed and built a fully responsive and visually appealing website from scratch to host our educational children's game and team information.

- Figma
- React.js
- JavaScript
- HTML/CSS
